Message from Vice Chancellor

I feel honored to present Annual Report of Sumandeep Vidyapeeth for the year 2022-23. Sumandeep Vidyapeeth bears the distinction of being the only Health Science Higher Education Institution in the state of Gujarat to be classified as a Category -I University under the UCG [Categorization of Universities (only) for grant of graded autonomy] Regulations 2018.

Over the past one year Sumandeep Vidyapeeth has continued its quest towards achieving greater heights and newer milestones.

The Institution over past one year has achieved many distinctions which are reflected in this annual report. I applaud Faculties, Staff and Students of Sumandeep Vidyapeeth for their scholarly, cultural and extracurricular achievements during the year, and look forward to their dynamism in keeping up with the ever-increasing demands of higher education institutions for excellence. I hope the annual report gives everyone an insight of the Institution and its achievements during the academic year 2022-23.

Dr.R.P. Bharaney
Vice Chancellor

B. Best Practices :

- **Evidence based education system (EBES)**– EBM course work has been incorporated in curriculum and one project is also given to the students.
 - i. **EBES Projects:** Each First and Second year MBBS Students have to prepare and submit the one EBES Project under guidance of one faculty.
 - ii. **EviGenCHIP program :** Third MBBS Part-I student undergo two days workshop on Evidence generation community health interventional programme (EviGenChiP) and then do and submit one Community based projects under guidance of allotted guide.

- iii. **EBES Clinical Queries:** Third MBBS Part – II student prepares and submit EBES based clinical queries which are critically appraised as part of their learning EBES modules.
- iv. **EBES based Seminar/ Case Presentation / Journal Club:** First all the PGStudents are orientated and taught about EBES and EBP orientation workshop and then they incorporate latest best available evidences in Seminar/ Case/ Journal Club Presentation which are critically appraised by the faculties of the departments.
- **Continuous cumulative evaluation system (CCES)**– Continuous evaluation- every lecture and practical session is evaluated for the students. Weightage is given on day to day assessment of students and which also reflects in preparation of their internal marks.
- **Student Learning Support System (SLSS)** –Categorization of students into Slow, mediocre and advanced learner groups as per the performance and to provide learning support accordingly.
- **Student Mentorship and Counseling System (SMCS)** – Structured mechanism for regular monitoring, mentoring and counseling of students, for solving academic as wells as non-academic issues of the mentees by their allotted mentors
- **Feedback on Curriculum:** feedback on curriculum is taken from various stakeholders like Students, Teachers, Alumni, Employers and professionals (e.g. Examiners, Invited Guest lecturers or Speakers on Curriculum. And feasible novel suggestions are incorporated in the curriculum through a structured mechanism established.

Pharm) – Pharmaceutical Quality Assurance Program 	<ul style="list-style-type: none"> The pharmaceutical and healthcare industries are constantly evolving. New drugs, treatment approaches, regulations, and technologies emerge regularly. By incorporating subtopics, the curriculum can adapt to these changes and ensure that students are up-to-date with the latest developments in the field. As the healthcare industry expands and the need for pharmaceutical services increases, there might be a higher demand for qualified pharmacists. Increasing seat intake can help meet this demand and ensure an adequate supply of skilled professionals.

DEPARTMENT OF SPORTS AND PHYSICAL EDUCATION

1. Brief write up about the Department of Sports & Physical Education and its functions:

The Department of Sports and Physical Education at Sumandeep Vidyapeeth is at the forefront of delivering a scientific and equitable access to sports and games infrastructure to all its students and staff. We believe that a practice of taking part in sports and games helps to develop a well rounded personality besides the obvious benefits to the individual in terms of health and stamina. This is especially relevant as the University is involved in imparting healthcare education. Keeping this in view, the University has put in place a state of art sports and games infrastructure which is freely accessible to all its students and staff. The University has gone one step ahead and has also put in place equipments and implements needed for systematic and scientific coaching and training for all the sports and games. The University also actively promotes and incentivizes participation of its students in different competitions and tournaments. The students have also brought laurels to the Institute from time to time. All in all Sumandeep Vidyapeeth has facilities for a wholesome sporting experience. As they say, "Let the games begin"

STUDENT AND FACULTY DEVELOPMENT CELL

1. Brief write-up about the Student and Faculty Development Cell:

Student and Faculty Development Cell (SFDC) plays a pivotal role in enhancing the overall quality of education by creating an environment conducive to learning, personal development, and professional growth. The primary objective of SFDC is to provide a supportive framework that nurtures the intellectual, emotional, and social development of students while also facilitating the continuous growth and improvement of faculty members. The cell strives to create a well-rounded educational experience by organizing various academic and extracurricular activities that enable students to explore their interests, develop critical thinking skills, and become responsible and ethical citizens. Furthermore, the SFDC recognizes the pivotal role of faculty members in delivering high-quality education. It is responsible for providing opportunities for faculty development and training, ensuring that educators are equipped with the latest teaching methodologies, technological advancements, and subject matter expertise. By fostering a culture of continuous learning and research, the SFDC helps faculty members stay updated in their respective fields, thus enhancing the overall teaching and research standards of the institutions. SFDC focusing on the comprehensive growth of students and the professional development of faculty and contributes significantly to the institution's reputation, academic rigor, and its ability to prepare students for the challenges of the modern world.

EVIDENCE BASED EDUCATION SYSTEM (EBES) CELL

1. Evidence-based Education System (EBES) Cell:

The Evidence-Based Education System (EBES) at SumandeepVidyapeeth Deemed to be University represents a pioneering and distinctive approach that forms the bedrock of our institution's commitment to delivering the highest standards of education. This innovative program is underpinned by a thoughtful selection of teaching methodologies and learning strategies, all centered around the core principle of evidence-based education. Let's delve deeper into the key aspects of this system and how it benefits our students:

Specialized Courses: To ensure that our students across various constituent colleges understand and apply the concept of evidence-based practice, SumandeepVidyapeeth has developed specialized courses tailored to the unique requirements of each discipline. These courses cover a wide spectrum, including Evidence-Based Medicine (EBM), Evidence-Based Dentistry (EBD), Evidence-Based Pharmacy, Evidence-Based Physiotherapy, Evidence-Based Nursing, and Evidence-Based Management. The primary goal of these courses is to equip our students with the essential skill of making informed decisions grounded in the available evidence. This entails developing the ability to systematically search for all relevant evidence, critically evaluate the quality of evidence, identify the most reliable sources, and assess the applicability of this evidence in real-world clinical scenarios. By focusing on these skills, we empower our students to become adept at evidence-based decision-making, a vital competency in healthcare practice.

Integration into Curriculum: We integrate these evidence-based courses into the curriculum for undergraduate students across all constituent colleges. Starting from the very first year of their academic journey and extending through to the final year, students are exposed to the principles and practices of evidence-based healthcare. This ensures that they have a solid foundation in this critical aspect of modern healthcare delivery.

Effective Teaching: Trained faculty members are entrusted with delivering theory lectures on the concept of evidence-based practice. These educators are well-versed in the principles of evidence-based education and provide students with a comprehensive understanding of the subject matter.

Reference Modules: To facilitate learning, we provide reference modules for each subject. These resources serve as valuable aids for students, offering additional support in their studies and helping them access relevant information to strengthen their evidence-based skills.

Practical Application: Knowledge acquisition is not limited to theoretical understanding. To reinforce their learning, students actively engage in evidence-based activities. These activities allow them to put their knowledge into practice, thereby bridging the gap between theory and real-world application.

Comprehensive Assessment: Both theoretical and practical assessments are conducted to evaluate students' comprehension and application of evidence-based principles. The results of these assessments are reflected in their final transcripts, emphasizing the additional training they receive in evidence-based education throughout their academic journey. SumandeepVidyapeeth's Evidence-Based Education System (EBES) is a forward-thinking approach designed to equip our students with the essential skills and knowledge required for evidence-based healthcare practice. By integrating evidence-based courses into the curriculum, providing skilled faculty, and emphasizing practical application, we ensure that our graduates are well-prepared to make informed, evidence-driven decisions in their respective healthcare fields, ultimately benefiting both individual patients and society as a whole.

3. Activities:

Faculty Development Programme: 6th and 7th, April 2023

The Evidence-Based Education System (EBES) organized a faculty development program on April 6th and 7th, 2023, aimed at providing newly employed faculties with an understanding of Evidence-Based Health Care practices (EBHC). This program had several objectives, which included educating participants about research designs, instructing them on using search engines and databases, teaching the application of biostatistics, and facilitating the practice of critical appraisal of evidence. The program featured lectures delivered by field experts on these topics, interactive peer teaching sessions, insights into Evidence-Based Journal Clubs, and discussions on Evidence-Based Protocols and Grading systems. Additionally, the program included hands-on activities such as the critical appraisal of research articles. To assess the impact of the program, participants underwent pre- and post-testing, demonstrating that the program significantly enhanced their understanding of EBES and evidence-based practice.

National level webinar on non-pharmacological management of life style diseases on 6th June 2023.

The National Level Webinar on Non-Pharmacological Management of Lifestyle Diseases, held on June 6th, 2023, was organized by the Evidence-Based Educational System Cell, SVDU, and the SumandeepVidyapeeth Centre for Evidence-Based Health Care, an affiliated group of JBI. The webinar aimed to address the critical issue of lifestyle diseases, such as obesity, diabetes, and cardiovascular ailments, and explore non-pharmacological approaches to their management. The event attracted 231 participants and took place virtually on the Zoom platform. The objectives of the webinar included gaining an in-depth understanding of lifestyle diseases, exploring the role of stress in these diseases and its management, delving into physical activities and exercises for mitigating lifestyle diseases, and recognizing the importance of dietary habits in managing such conditions. The event featured prominent speakers who provided valuable insights into the topic. Dr. J.D. Lakhani, an Emeritus Professor, discussed the causes, prevention, and management of lifestyle diseases, emphasizing the need for healthier practices. Dr. Sandeep Shah, an expert in psychiatry, highlighted the connection between stress and lifestyle diseases, offering strategies for stress reduction and disease prevention. Dr. RajaniMullerpatan, a renowned physiotherapist, elaborated on the significance of physical activities and exercises in preventing and managing lifestyle diseases. Dr. Anjali Wadhvani, a multi-faceted professional, emphasized the importance of dietary habits in maintaining overall well-being. In conclusion, the webinar provided attendees with comprehensive insights into the challenges posed by lifestyle diseases and non-pharmacological approaches to address them. The event equipped participants with actionable knowledge to make informed choices and lead healthier lives. It underscored the importance of proactive management and preventive measures in tackling the growing prevalence of lifestyle diseases and contributing to a healthier society.

INSTITUTIONAL SOCIAL RESPONSIBILITY (ISR) CELL

1. Brief about the ISR Cell and its functions:

- The main challenge in the 21st century for the education of health professions resides in the responsibility of educational institutions for a greater contribution to improving health systems performance and people's health status. Especially in Rural area, as many Indians continue to live in rural India, and many rural communities are disadvantaged, it follows that there should be substantial academic engagement in teaching and research with rural India. Areas of study would come from many disciplines and be interdisciplinary, including best practices in rural development, rural health issues, natural resource management, livelihoods diversification, poverty alleviation strategies and good governance. An emphasis on community engagement is an opportunity to inspire the systematic development of resource materials on the rural sector to build the knowledge and capacity needed to empower disadvantaged rural citizens.
- This will be achieved, not only by tailoring educational programs to priority health problems, but by a stronger involvement in anticipating health and human resources needs of a nation and in ensuring that graduates are employed where they are most needed delivering the most pressing services. A new paradigm of excellence for academic institutions is needed, as well as new sets of standards and accreditation mechanisms to promote and evaluate their capacity for a greater impact on health.
- Not only these, students need to lean the voluntary work and sparing time to support society through various agencies like NSS and others. Institute will open opportunity for students to voluntary work. Along with these students and faculties of marginalized group like SC/ST, OBC, minorities like Parses, physically challenged etc should get opportunity and work.
- To achieve these objectives and develop such standards in all stakeholders, university has formulated the Department of institutional social responsibility.

2. Objectives:

- To promote social learning among the students and faculties of university.
- To ensure Leadership, Community and Team Building Skills in students.
- By providing civil education, creates the health enrichment of community.
- To spread awareness for social responsibility.
- To generate sensibility for marginalize groups of society.
- To arouse social consciousness while studies
- To work with and among the people as volunteer for social service

STUDENT MENTORING & COUNSELLING (SMCC) CELL

1. Brief write up about the Mentorship Cell and its functions:

Mentoring is an important method of guiding and supporting students to improve their learning skills, make suitable adjustments to cope up the health/medical education and motivating them towards their future career development. By providing, a reliable and comprehensive support system, the mentoring system intends to motivate students to excel in both curricular and extracurricular activities. With this in mind, the institution has a mentorship program wherein the faculty members meet the students frequently to listen to their issues, enable constructive interactions with mentees, guide them on their academic performance and also help in their overall personality development.

SMCC strives for the following:

1. To help the newly admitted first year students to cope up with the academics and get into a smooth transition to campus life.
2. To help the students to develop their own goals; curricular, co-curricular and extracurricular areas; and remain focused in achieving them.
3. To counsel academically weak students and help them in overcoming their barriers.
4. To play an important role in helping troubled students in coping with curricular, extracurricular and help in overall personality development.
5. To facilitate the holistic / overall development of students, identify their career goals and help in their career development.
6. To make the students understand the opportunities and challenges present inside and outside the institution / campus.
7. To regularly follow up with the mentees and review their progress, and if needed undertake corrective measures.

LEARNING RESOURCE CENTRE (LRC)

1. Brief about the Learning Resource Centre and its functions:

Library is the heart of any academic institution. The Learning Resource Center also acquires a prominent place towards students and faculty members of Sumandeep Vidyapeeth. The Learning Resource Center has two storied separate building surrounded by garden, it is a central place for academic and research activities. The library has a well equipped computer lab to access e-resources with NKN 1 GBPS leased line internet facility, centrally air conditioned reading rooms for UG and PG students with the seating capacity of 650 students.

The library services are provided to students, staff & faculty members for updating their knowledge and supporting the research and teaching / learning activities. These services are provided through the central library and departmental libraries. Keeping in view the fast changes in technology, the knowledge base of the library is updated regularly by way of adding new literature in the form of text books, reference books, national and international journals & databases.

The Library has a rich collection of more than 40000 books of national and internationally renowned publishers covering almost all areas of Medical, Dental, Pharmacy, Nursing, Physiotherapy, Audiology, Ayurved, Homeopathy, Management and Para medical sciences. More than 240 International and national journals are being subscribed every year. The library has institutional membership of DELNET. Through DELNET students can access more than 2200 E-Journals on various subjects.

To keep pace with ongoing technological changes the library records have been computerized for making it accessible to the faculty & students at their work places which not only save the time but also make the simultaneous multiple access of information which otherwise is not possible in print formats. Well known Library Management software KOHA 21.5 is being used for the automation of library services.

A well equipped computer lab is available to access e-resources for students and faculties. Online Public Access Catalogue (OPAC) of books, journals and several useful resources available on internet have been identified and links are made available on the library Web page

The library has also developed an institutional repository using Dspace open source software. The repository can be accessed on intranet. Project reports, Theses and Dissertations, Faculty publications can access through the repository.
